

House Info & Local Guidebook

Welcome

We are Krisiti and Steve; just two people who love Florida! We created Squeeze the Day as a way to bring our family together and enjoy the magic of Orlando, and we're genuinely excited to share a little of that magic with you!

As Disney World annual pass-holders, we love popping into the parks for a full week or even just an afternoon, and in the winter we split our time between the ski slopes of Utah and the parks and beaches of Florida.

We're here if you need us—otherwise, relax and enjoy the magic!

Meet your hosts

We are Riley and Michael — Steve and Kristi's daughter and son-in-law.

With young kids, we know you can't beat the Disney magic, and we are so happy to welcome your family to Orlando. We'll respond as quickly as possible, go above and beyond whenever we can, and we want you to feel comfortable reaching out with questions at any time.

Our goal is a stay that's easy, fun, and truly relaxing—whether you're winding down after the parks or enjoying the home, Soltera Resort, and everything Orlando has to offer.

You can text or call us at: 850-842-7829

Arrival Information

Door codes will be provided 72 hours before arrival; typically the last 4 digits of your booking phone number.

**4586 Terrasonesta Dr
Davenport, FL 33837**

Foosball Table

Temperature Control

Ecobee thermostat is located in the game loft to the right of the Washer

Private Pool

Pool heating is an available option for guests looking for a more comfortable, private swimming experience.

Especially recommended from October through April when the weather can be cooler. The service is offered at \$50+tax per night, which targets a pool temperature of 87 degrees Fahrenheit*

- Pool takes 24 hours to heat.
- Please request pool heating in advance to ensure it is ready for you.
- Must be heated for consecutive dates.
- May be heated for less than the entire stay, if booking 7 or more days.
- Shorter stays require heating the entire booking

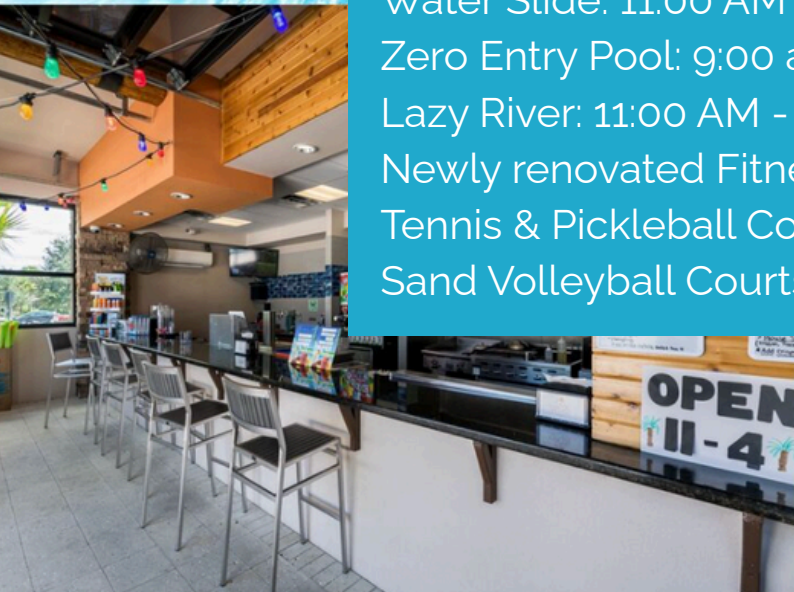

Please note that while we strive to maintain these temperatures, cooler evening temperatures may affect the water temperature particularly in the mornings; it may not remain constant at all times.
For the warmer summer months, the pool generally stays warm without heat
